ABOUT ME

Front-end developer with 3+ years of experience, specializing in responsive design, performance optimization, UI/UX, and best practices. Proficient in JavaScript, React, and tools such as Git and Figma. Recognized for creativity, problem-solving, and collaboration, with a focus on delivering efficient, user-centered web solutions. Team-oriented with a passion for driving positive change through technology.

EXPERIENCE

June 2022 - Present

Dalil

Front-End Developer & Team Leader

Dalil: Led the development of Dalil, a platform offering curated programming resources for learners of all levels. Enhanced performance by 30% through responsive design and optimizations. Developed reusable React components, improved SEO and accessibility, and continuously refined the site based on user feedback.

June 2022 - Present

Netflux-Movies

Front-End Developer

Streaming Platform: Designed and developed an immersive UI/UX-focused streaming platform. Integrated front-end and back-end components for seamless performance and optimized loading times for a smooth user experience.

July 2023 - Present

Hunger Problems in Africa

Front-End Developer

A website dedicated to raising awareness about the severe food insecurity crisis in Africa, offering insights into causes and solutions.
